

I am proud to be  
me

I am proud to be  
KPMG

## We are KPMG

Ivan works in the M&A division of Corporate Finance, under the Advisory function of KPMG. Before joining KPMG, he had five years of corporate finance experience working at an international bank.

This week Ivan and his team are celebrating the completion of their recent M&A transaction.

Four months ago, a PRC-based company wanted to seek financing from international investors. They came to KPMG for help.

Ivan and his team reviewed and evaluated the company's profile, drafted and appraised the information memorandum, business plans and financial models.

The client was pleased with the team's professional approach to the marketing process. Shortly, a US-based private equity investor showed a huge interest in the company and more work started.

The KPMG team assisted their client in the negotiation process with the investor and coordinated the due diligence activities. They developed the transaction structure, advised on the price, terms and conditions, and formulated the counteroffers.

The transaction was successfully completed. The client was very happy with what Ivan and his team has delivered. Ivan and his team were pleased that their hard work paid off for their client.

Our Corporate Finance Department is expanding rapidly, and so are the rest.

Can you see yourself at KPMG?
